## Avoidance of Financials

Judy avoided doing her books every week. It turned into months. One day, after great progress around her confidence, I discovered that Judy's avoidance was due to an unpleasant experience doing someone else's books. We cleaned up this pattern and Judy began tackling her books with the knowledge that order equals expansion.

I taught her about cash-flow projections and the importance of tracking her progress, from a place of mindfulness. Judy is brilliant at what she does. Her clients love her.

One thing Judy does exceptionally well is "segment intend." Judy utilizes the technique shared by Jerry and Ester Hicks on seeing what you want prior to it happening. Judy is a genius at pulling opportunities to her. She has a nature gift. All women can activate this gift once they learn to pull opportunities to them.

Her income went from \$1,800 per week to \$4,800 to 7,800 per week only 18 months later.

When we address our insecurities and get to the root of our fears, we can then develop and listen to personalized SMT's (spiritual mind treatments) repeatedly until we shift our mental equivalent, to being a vibrational match with that which we seek (that is seeking us) the divine connection.

*Finances are connected to our earth line of energy, our root chakra the sacrum area and often also to the lower back.*

*When we address our fears and get grounded in truth principles, we begin to feel the SUPPORT of the Divine from within - our CASH-FLOW AUTOMATICALLY INCREASES!*

# Great Income, A Vague 'why' followed by PROCRASTINATION

Our “why” is what keeps us in our game. Debby is brilliant at manifesting what she wants. Debby is also a take-charge individual who speaks and claims what works for her. She has a healthy marriage and loves her sweetheart of a husband. Money shows up in healthy amounts for Debby. However because of this Debby procrastinates. Debby has been building one of her businesses for the past 6 months with checks ranging from \$4k to \$6k and now \$10k a month. Debby also has another stream of income. The sad thing is that this is exactly why her procrastination pattern raised its ugly head and started taking over her thoughts.

Debby's one business, all of a sudden, slowed dramatically. In our session, we dug deep and found that Debby had a weak “why.” After a couple of sessions, Debby's why surfaced. Her business helps other women be in their power. Debby loves to see others do well and to be a part of it. She does not want to be in the spotlight but wants to be making an impact on other women by helping them be financially free so they can easily afford to do things with their families and for themselves.

In Debby's business, she is a team leader. If she does not lead her team, her business dwindles. *Debby has the mind-set to succeed when she wants something. She is brilliant at pulling it together and riding the wave of success.*

We discovered that as Debby began *leading again and following through with her commitments*, things began to *flow again*. It is important to have women like Debby in this world that show all of us, it is possible to do things with ease and grace when we want something!

At the end of our private session on the phone, I included a recording of a 10-minute SMT affirmative prayer with Debby's name in it. This time, I highlighted the ‘why.’

*When we get in touch with what drives our passion, our WHY - results magnify exponentially.*

# Not being Clear on Who Our Ideal Client is, Our Avatar

Not being clear on her ideal client, her avatar is exactly what tripped up Diane. Diane is a great massage therapist. The only challenge is that her client base is mixed, some are very committed to their health, others committed to clearing past traumas from their bodies, while others, do not prioritize their appointments. Diane's emotions fluctuated weekly. A mirror of these emotional swings was showing up in her client base.

When Diane would have a cancellation that week, her emotions of fear and doubt would surface, then her mind would run off with scenarios about more cancellations and lost income. As can be guessed, more cancellations followed. *Her thoughts were creating her reality.*

I worked with Diane around spiritual principles, specifically faith and trust. I assisted in imprinting that "God was her Source" of Income through a personalized SMT (spiritual mind treatments).

**What do I really mean by  
"GOD IS MY SOURCE"?**

**Everything comes from the  
ONE MIND,  
ONE POWER,  
ONE SOURCE.**

**This One Mind connects all of us.  
God is the Source of ALL IDEAS,  
all inspirations and the Source  
of OUR MONEY.**

*How so?*

*An idea, an intuition drops into our mind.  
We have a CHOICE, follow it or ignore it.*

When we say later, this immediately blocks our financial flow. Once I pointed this out to Diane, every time she had a cancellation, I said, imprint: "God, Universe, Divine (substitute your favorite name) send me TWO more committed clients. I also highlighted to Diane that she became like a scared rabbit when clients cancelled – dropping into a "Debbie Downer Mode." Once she saw her scared rabbit pattern, we were able to re-program her thoughts. This in turn, affected her emotions. It took several months to let go of this fearful response that would surface when clients cancelled last-minute. It takes time to shift patterns sometimes when we have been doing them for 10+ years like Diane had but it did eventually shift.

I taught Diane techniques for stabilizing her emotions and mental mantras including breath-work sequences, to change her sabotage programming.

We need to know what gets us out of balance. For instance, too much sugar, too many stimulants like caffeine, or too much alcohol (a known depressant) or when we experience a lack of sleep for several nights. All of these lower our energy – our vibration. This heightens our emotions.

# Not being Clear on Who Our Ideal Client is, Our Avatar

When our emotions are in charge, we are in trouble.  
*The kid in us is in charge and this isn't pretty. Drama reigns.*

*I am happy to report that Diane rarely drops back into her sabotage pattern of fear.*

*She has become like a unicorn, pointing the way with "MIND MANTRAS" and daily spiritual practices.*

*Her income has gone from a steady \$3,500 per month to \$6,500.*

I share these stories in the hope of providing spiritual tools and a sense of hope for those who seek to grow their conscious businesses. This world needs conscious business owners who are tuned-in, tuned-up and are richly Prospering to the tune of 6 -figures.

It's not about the money, it's about who we become in the process,

The highest and best version ourselves!

*"What you do for me Jayne is restore my faith and trust by connecting me deep within my heart."*

Now these successful business owners can share and help others feel the  
**FREEDOM** and **FLEXIBILITY** that comes with Success.

Ask yourself honestly, what do I want  
MY responses to be to my loved ones in 2018?  
Living a charmed life, being who we were  
called to be is truly the way to go. It's a Choice!
